

**Ing. CLAUDIA MARÍA GORDILLO RAMÍREZ**

Project officer

Professional profile and experience

She is a Guatemalan professional graduated as Environmental Engineer from the Rafael Landívar University, where she was an outstanding student and attended several courses for top students organized by the University.

She has studied English (writing and conversation proficiency) at the Guatemalan American Institute (IGA) from 1995 to 1999. She has also studied French (basic knowledge of the language) at the Language Learning Center, San Carlos University of Guatemala (CALUSAC), as well as the Alianza Francesa.

In the year 2004 she took the Geographic Information Systems applied to Natural Resources course offered by the Rafael Landívar University.

She works at the Institute of Agriculture, Natural Resources and the Environment (IARNA) of the Rafael Landívar University (URL) since 2006, initially as research assistant, and actually as project officer.
